

October7, 2022

To: Whom it may concern:

The European Union (EU) has adopted regulation no 1907/2006, also known as the REACH (Registration, Evaluation and Authorization of Chemicals) regulation, which became effective 1st June 2007. REACH requires registration of all substances manufactured in or imported to EU, subject to certain limited exceptions. Manufactures and importers can pre-register substances which will allow additional time to complete the formal registration process.

Our products do not contain any of the Substances of Very High Concern (SVHC) above the specified concentrations, as defined in Article 57 and Annex XIV (including all amendments).

Our products do not contain any of the restricted substances, as defined in Article 67 and Annex XVII (including all amendments). CW Industries is pleased to advise that none of the items manufactured by CW Industries contain any Substances of Very High Concern (SVHC) from the Candidate List Updated on June 10, 2022.

Cordially,
